## SKILLS

- Data Analysis
- Machine Learning
- Deep Learning
- Python
- SQL
- Pandas
- NumPy
- Scikit-learn
- Matplotlib
- Seaborn
- Excel

## LANGUAGES

- English (Fluent)
- Urdu (Native)

## PROFILE

Aspiring Data Analyst and AI Developer with practical experience in data analysis, machine learning, and dashboard development. Proficient in Python, SQL, Power BI, Streamlit, and predictive modeling with a strong focus on solving business challenges through data-driven decision making and scalable AI solutions.

## WORK EXPERIENCE

### PNY Software

MAR 2023 - JAN 2024

#### Data Analyst

- Built and delivered interactive Power BI dashboards that reduced manual reporting time by 40% for clients
- Preprocessed and cleaned 10,000+ row datasets using Pandas for statistical modeling and visualization
- Automated data collection via web scraping saving 5+ hours of manual work per week

## PROJECTS

### AI Smart Factory Intelligence System

Developed an AI-powered factory monitoring system to detect worker drowsiness, emotions, and safety compliance in real time.

**Technologies:** Python, Pandas, NumPy, Matplotlib, Streamlit

### HR Anaylsis,Power BI

**Technologies:** Power BI, DAX, Power Query, Excel, SQL

## EDUCATION

### Bachelor's in Computer Science

2021-2026

Riphah International University Faisalabad

**CGPA:** 3.8 / 4.0

### Intermediate (FSc Pre-Engineering)

2019-2021

Govt M.C Highe Secondary School

**Marks:** 915/1100
